

**HOW TO PLAY** 

REIGN OF TITANS (RoT) IS AN ONLINE PVP STRATEGY GAME THAT LEVERAGES THE **SOLANA BLOCKCHAIN TO BRING AN UNPRECEDENTED "PLAY TO OWN" CHARACTER ASSET EXPERIENCE TO LIFE.** 

Players have the choice of either renting a Titan from other members of the community or purchasing their own to be able to play the game. Not only is each Titan unique in their appearance, but customizable through in-game accessories, stats and strategies, that players earn as they level up through the game.

These mechanics provide players with an individualized gaming experience.

**BASE GAME MECHANICS** 

Welcome to the World of Ereo! You will be using your NFT Titan to battle against your opponent and attempt to reduce their Health Points to zero or make them run out of scrolls before you do.

scroll deck at the start of each turn. These scrolls require mana to be played and are executed in the order that you have placed them. Your turn ends when the timer runs out or if you choose to end it manually.

Players can play zero to four scrolls drawn from your

BATTLES ARE DIVIDED INTO TURNS AND EACH TURN HAS A SET OF FOUR PHASES.

# **BATTLE PHASES**

## At the start of a new turn, buffs, de-buffs and status skipped at the start of the game.

**Effect Phase** 

## modifiers from the previous turn will take effect. Titans then recover a fixed amount of mana. This phase is

**Pick Phase** Players can choose to play as many scrolls as they want per turn, provided they have the available mana pool to execute them.

These scrolls can be played in any order and can be adjusted on

the fly. The pick phase has a timer and is played simultaneously

for both players. If time expires or if both players end their turn

Players draw scrolls from their deck until they have four scrolls in their hand. If a player tries to draw a scroll and there are none left in their deck, they will lose the battle.

**Resolution Phase** 

### The resolution phase is an animated showdown between the two opposing Titans where effects from the turn take place. The Titan with the highest Agility will go first. If both Titans

**Draw Phase** 

have the same Agility, the initiator is decided by a coin flip. Some scrolls have effects that carry over into the next turn. These latent effects are executed at the start of each turn, during the effect phase.

that increases as Titans level up or as they invest character

points into the Magicka attribute. It is crucial for players to

manage their mana pools wisely to stay ahead in the game. Be strategic, plan your moves, and make the most of your mana to

While a level 10 Titan has

### Mana is the life force that permeates all living things within Ereo. How much mana you have left will dictate how many scrolls from your hand you can play each turn. Mana costs vary based on scroll strength and type. More powerful or complex scrolls will typically require more mana to cast.

subsequent turns, provided that these scrolls have been learned by your Titan.

MANA

Player's mana pools are a critical concept in the game and play a
